

Activation of Node Across 0 Layer For Logical Input

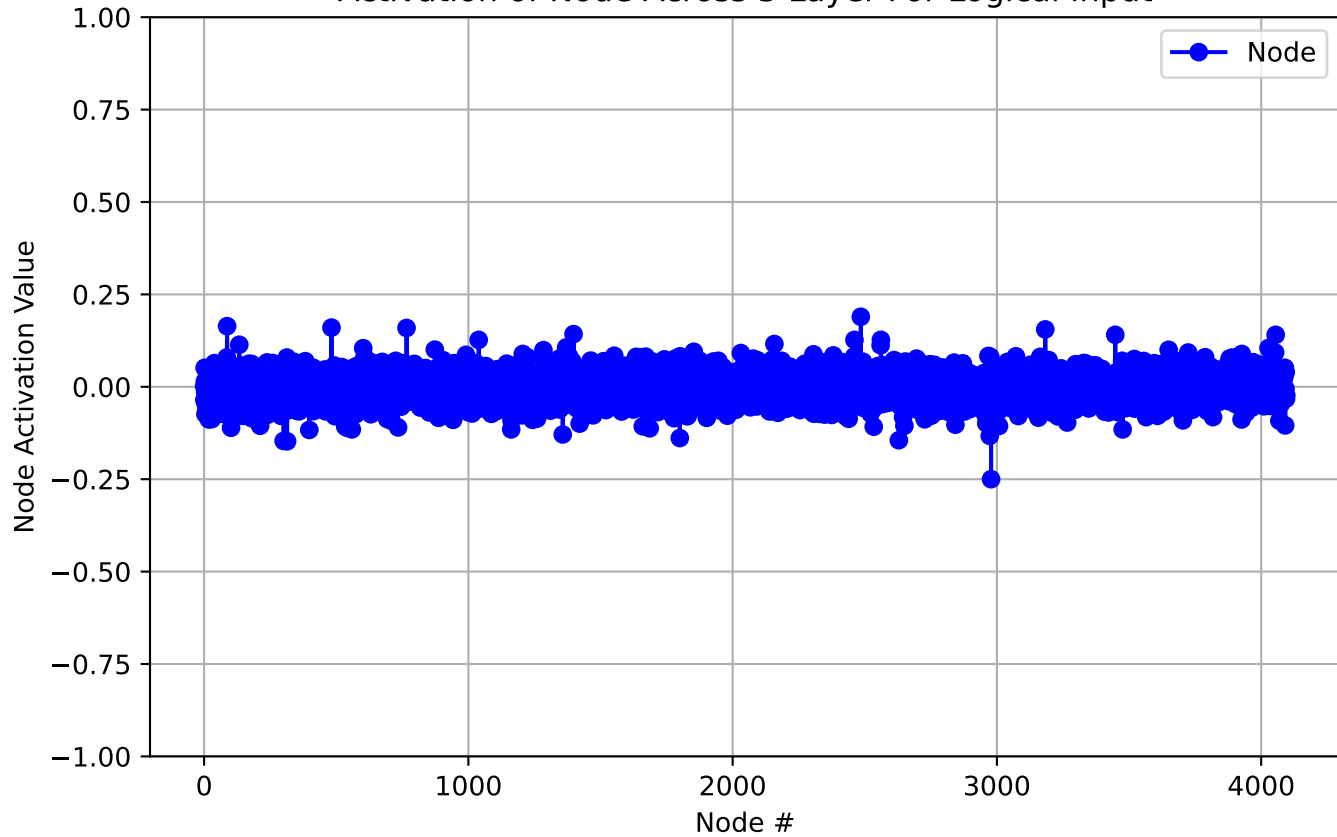

Activation of Node Across 1 Layer For Logical Input

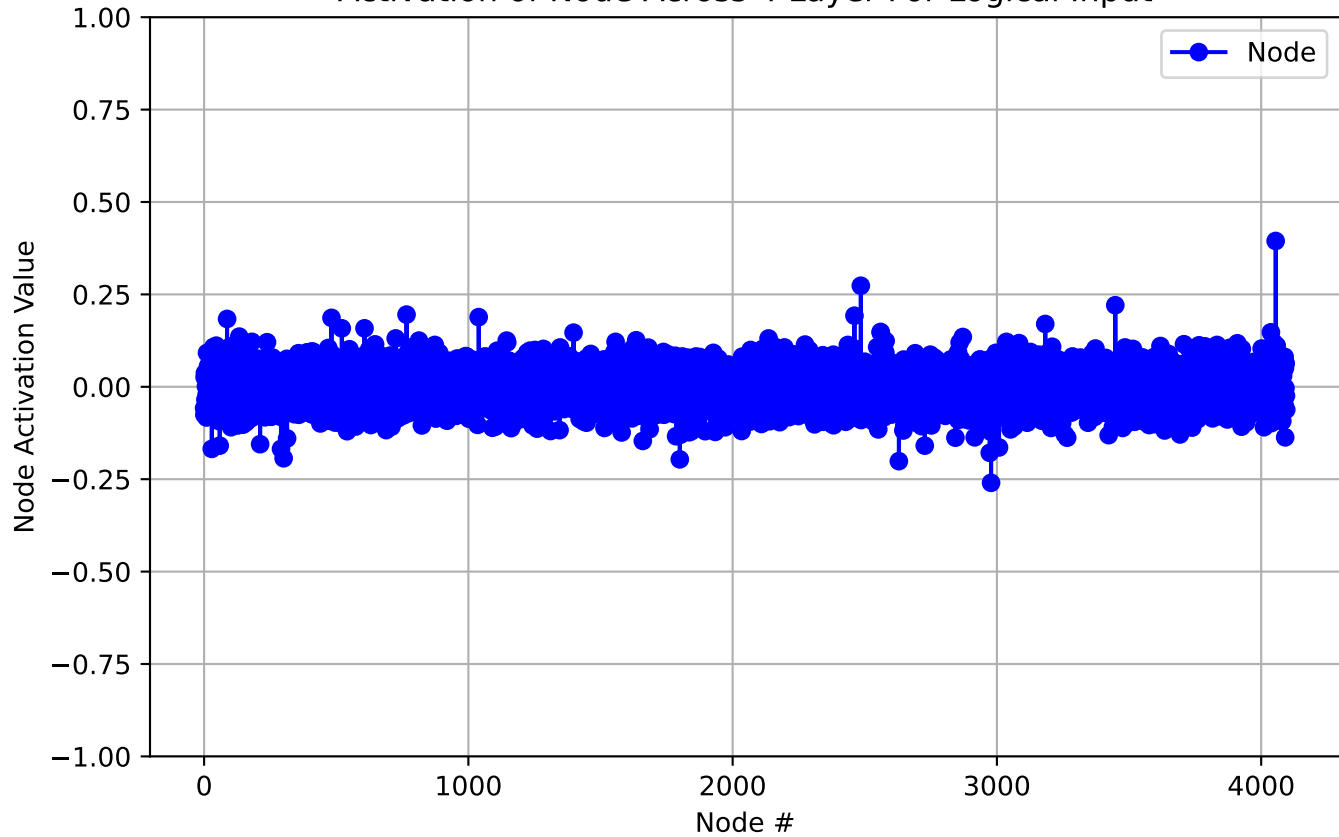

Activation of Node Across 2 Layer For Logical Input

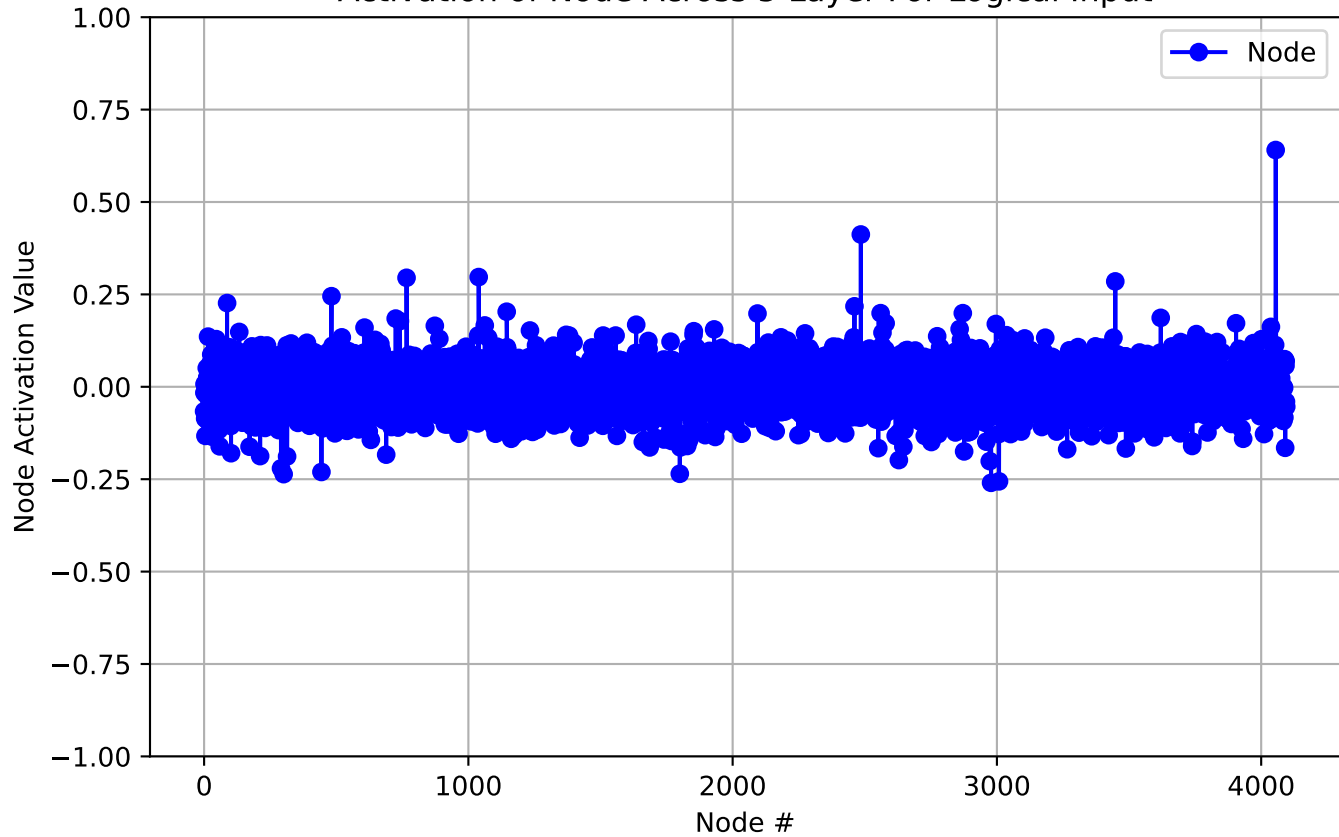

Activation of Node Across 3 Layer For Logical Input

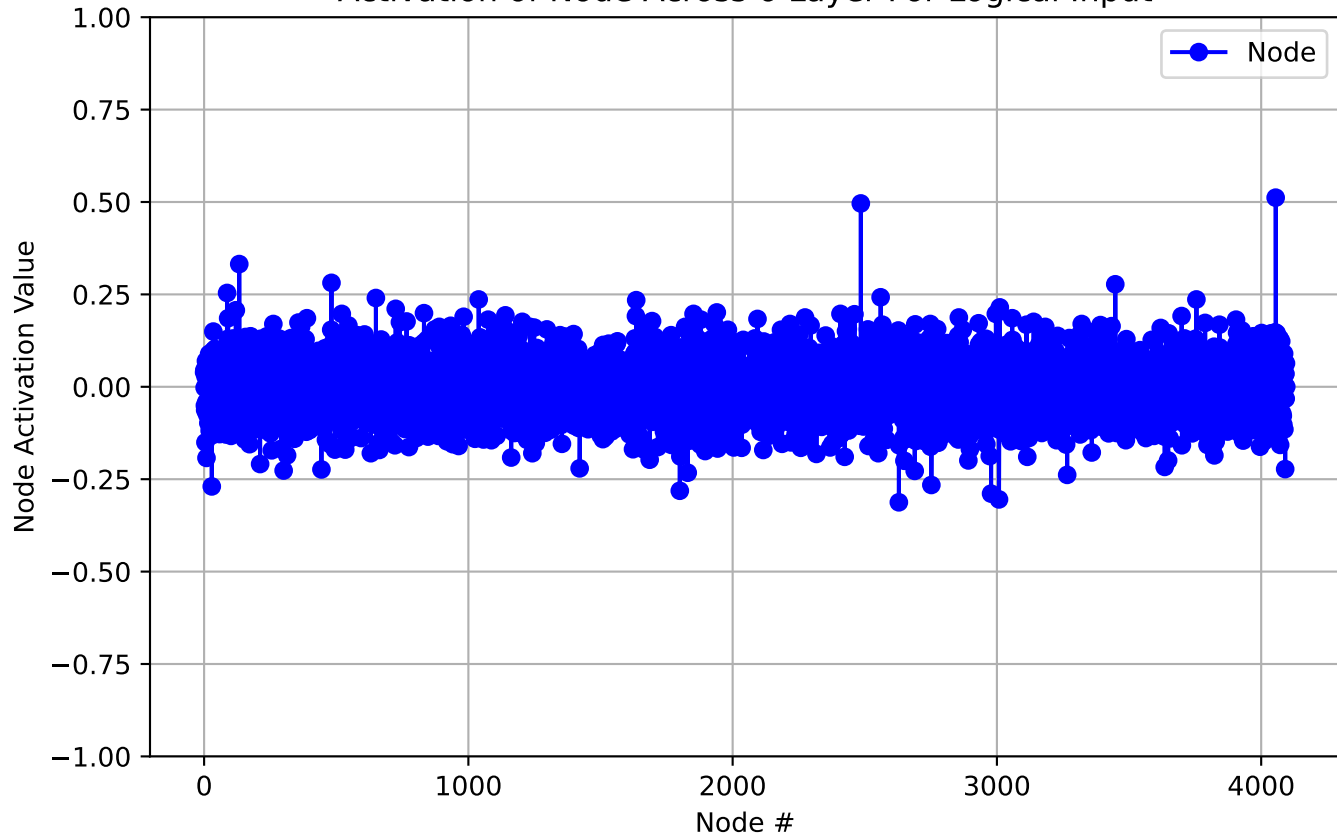

Activation of Node Across 4 Layer For Logical Input

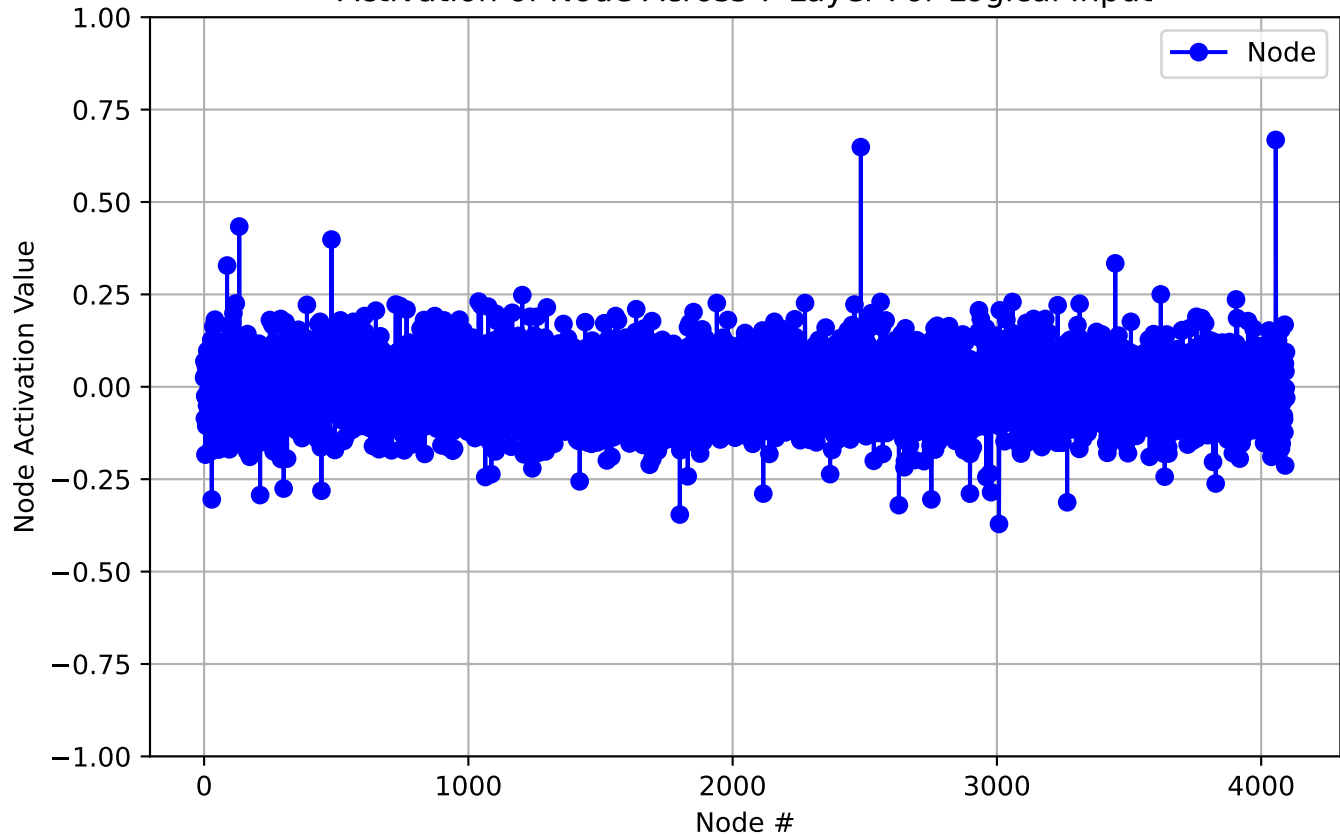

Activation of Node Across 5 Layer For Logical Input

Activation of Node Across 6 Layer For Logical Input

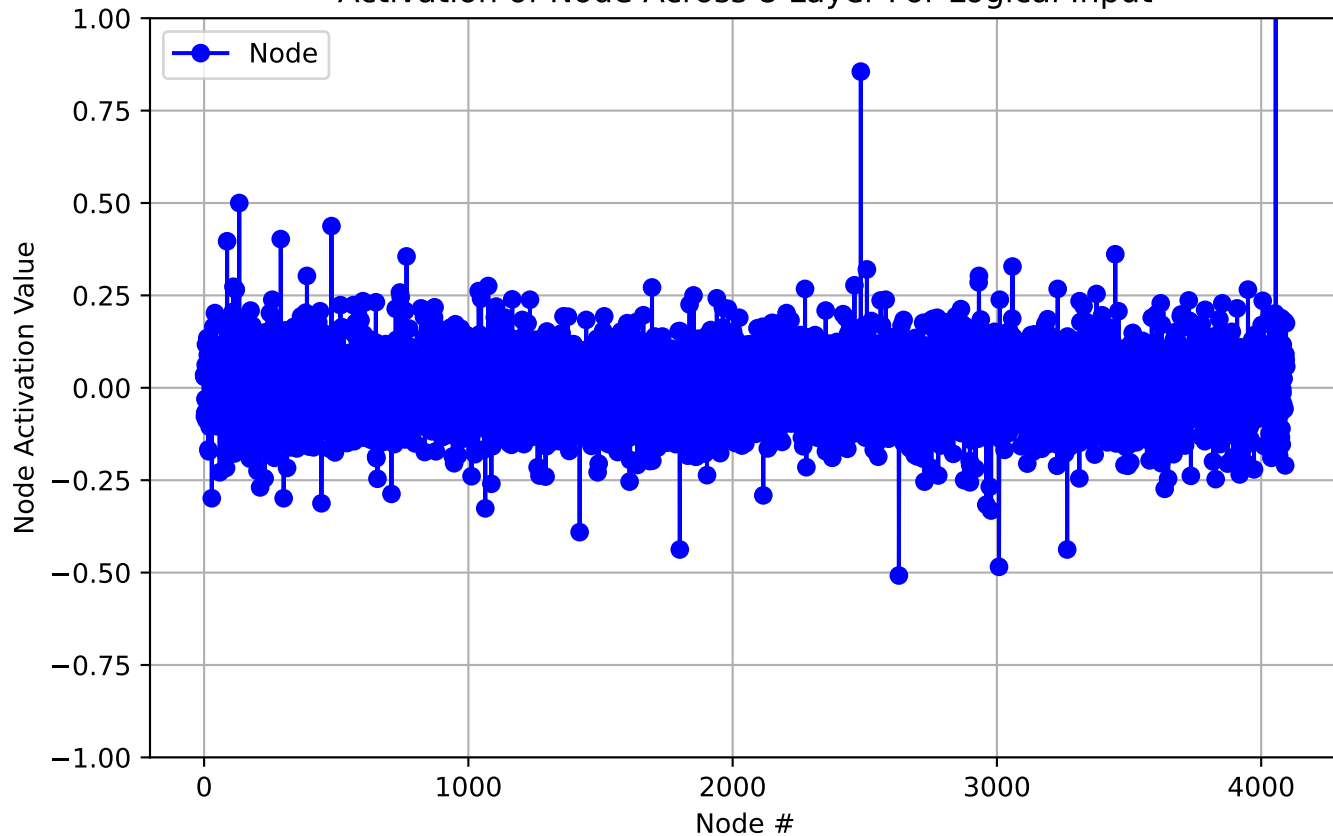

Activation of Node Across 7 Layer For Logical Input

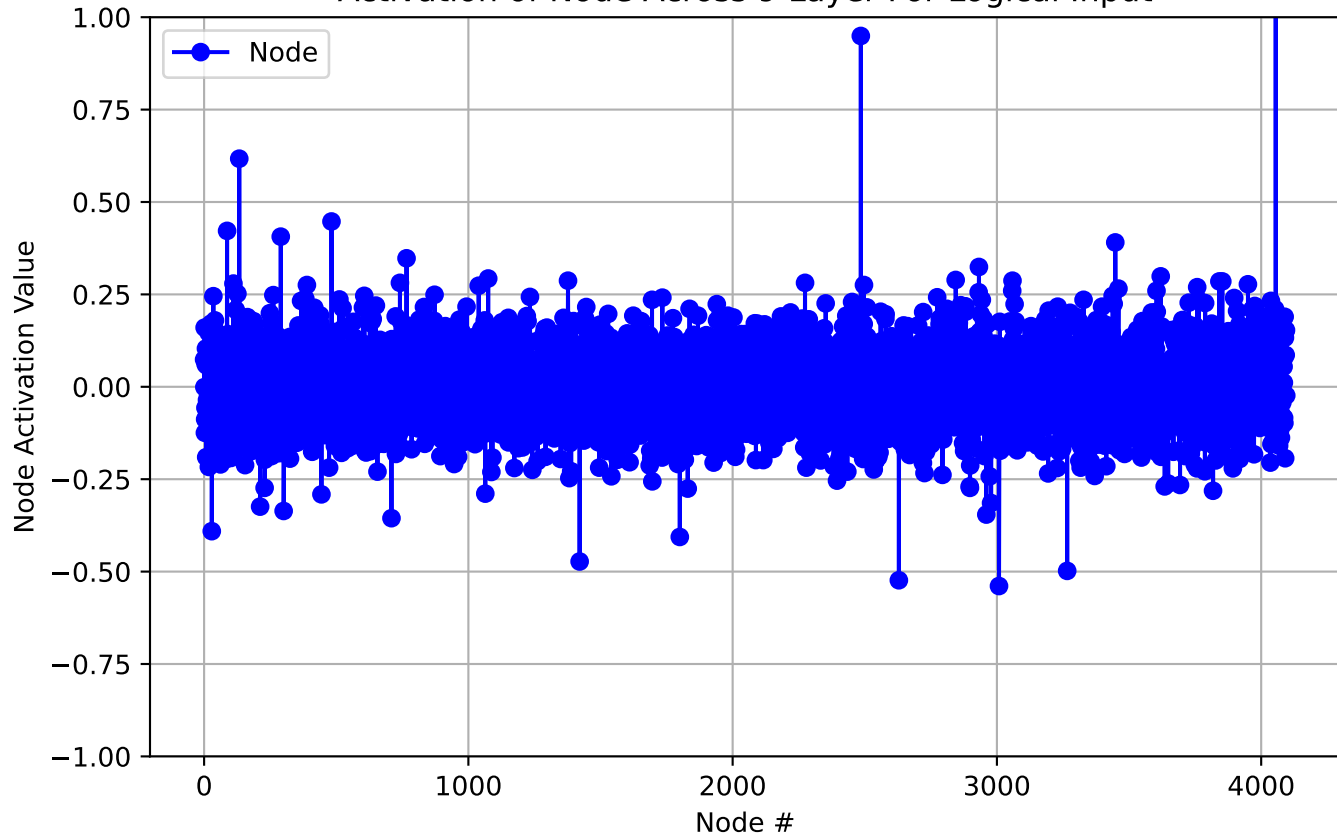

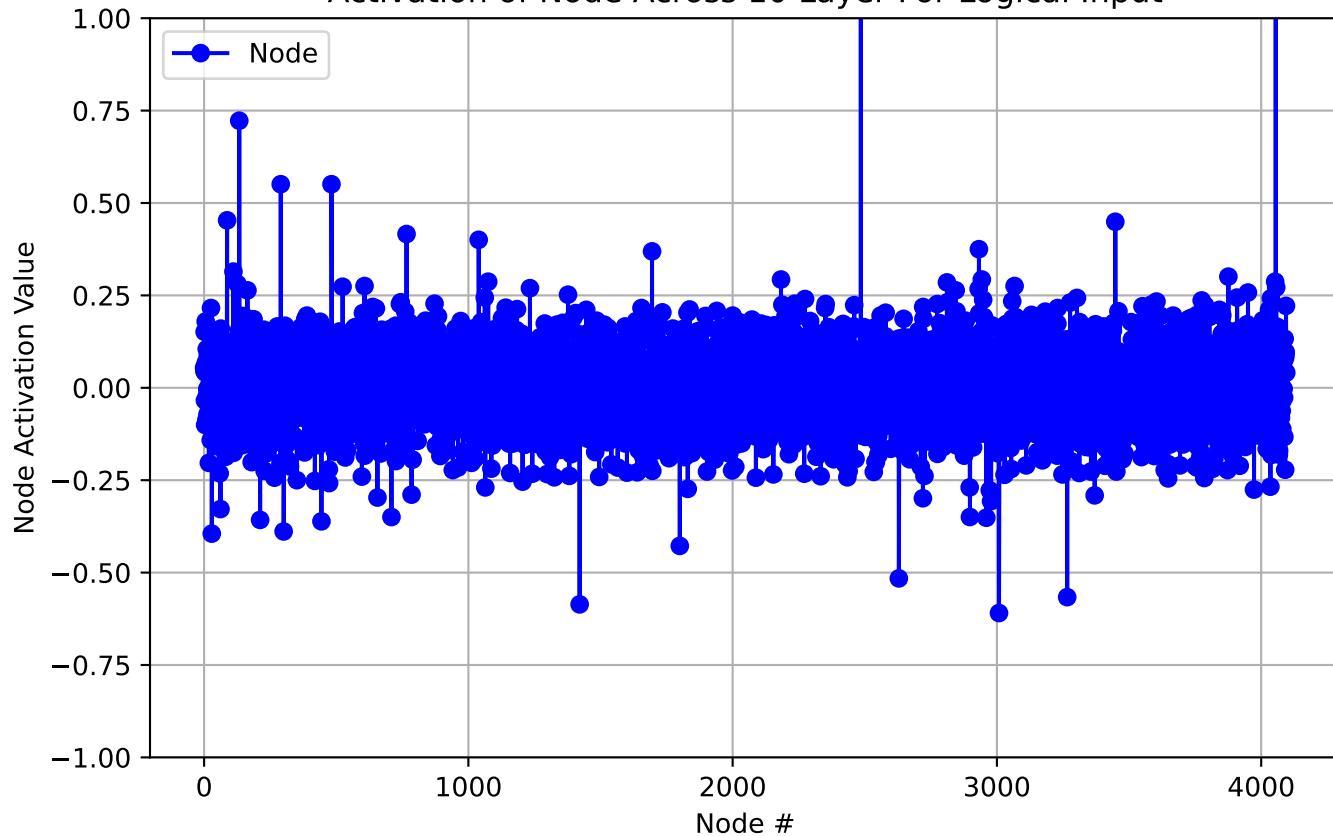

Activation of Node Across 8 Layer For Logical Input

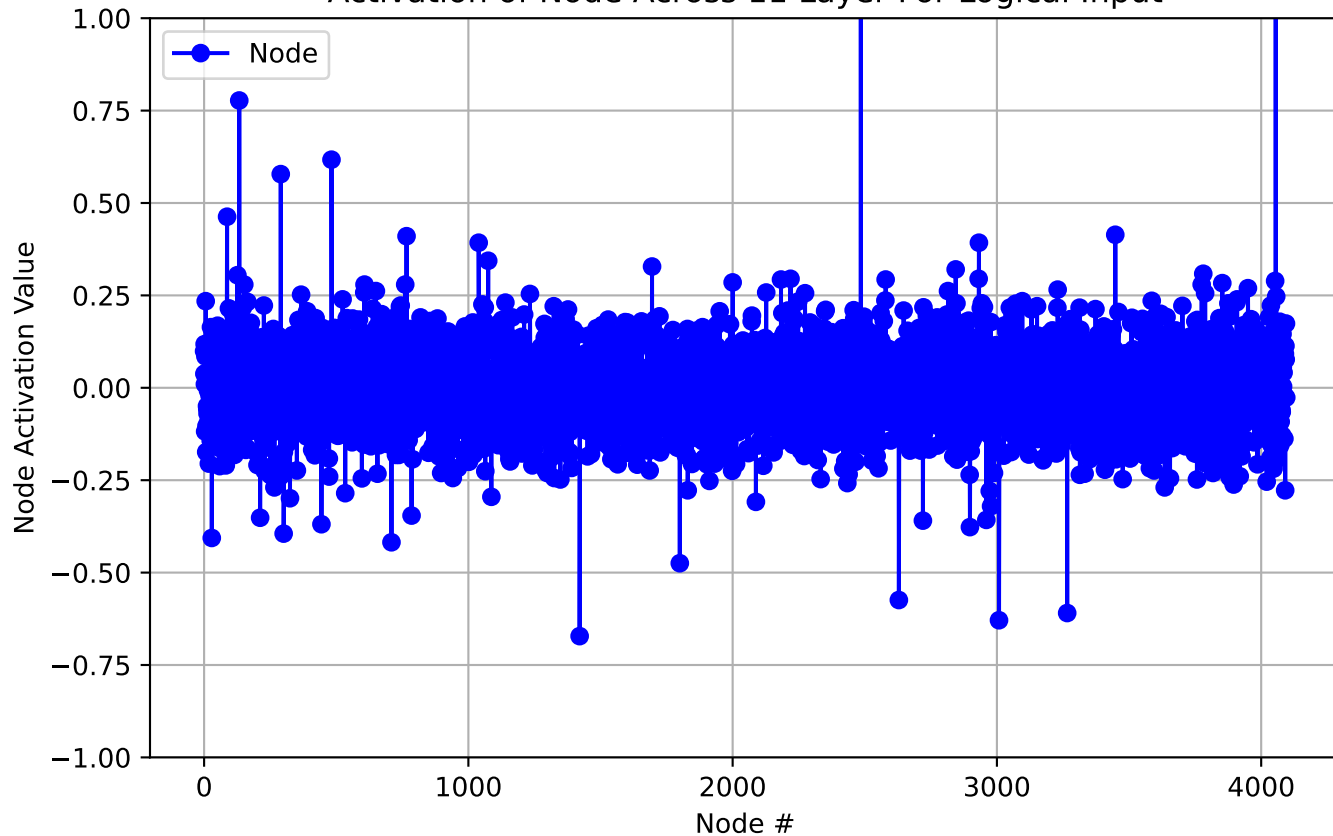

Activation of Node Across 9 Layer For Logical Input

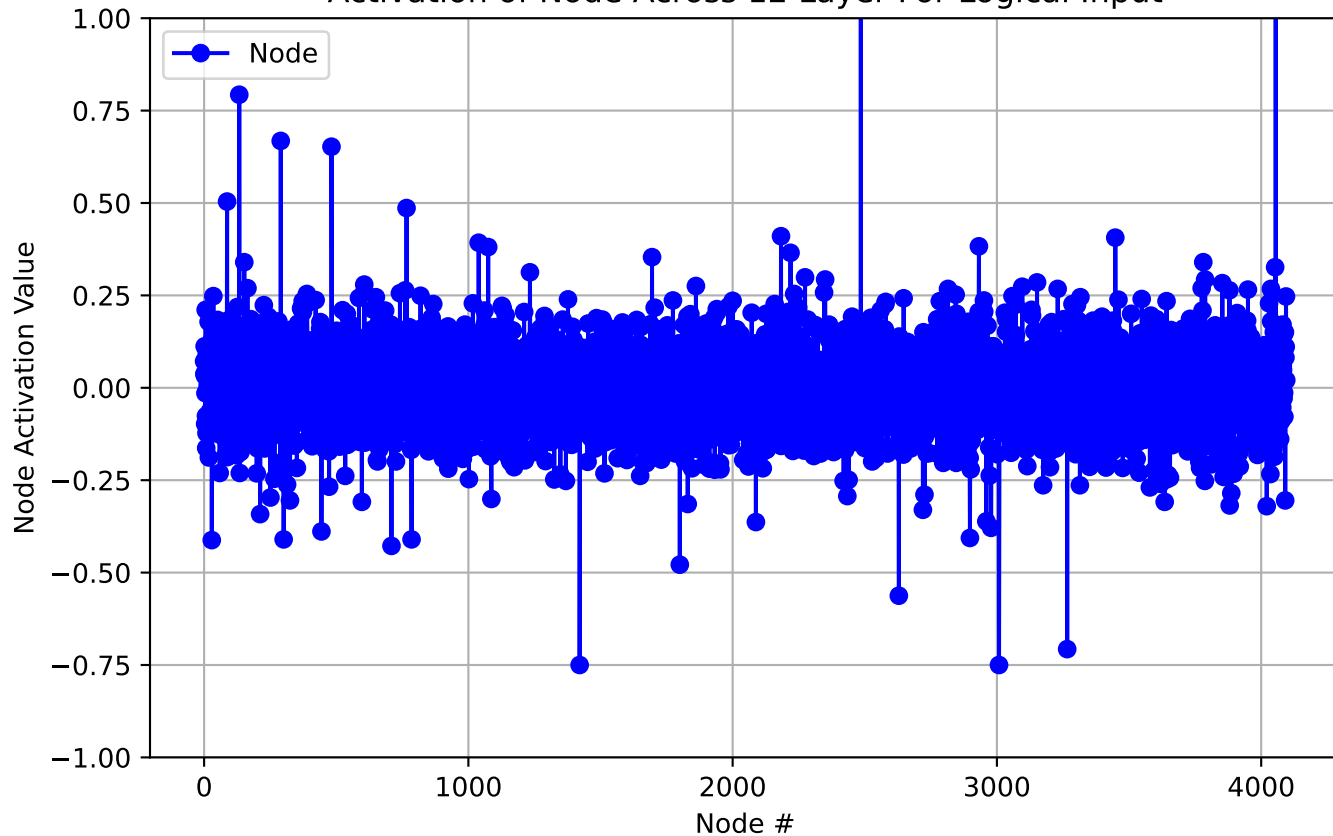

Activation of Node Across 10 Layer For Logical Input

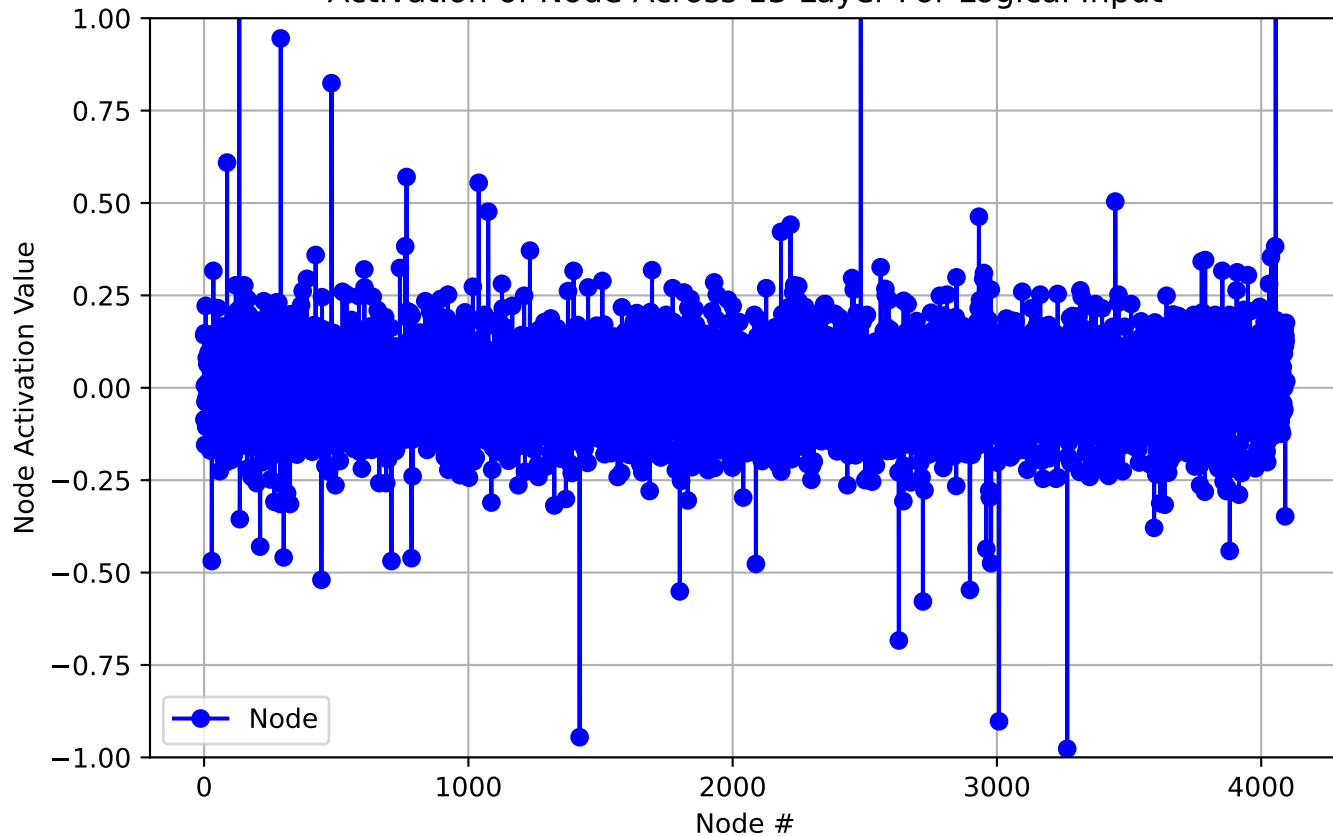

Activation of Node Across 11 Layer For Logical Input

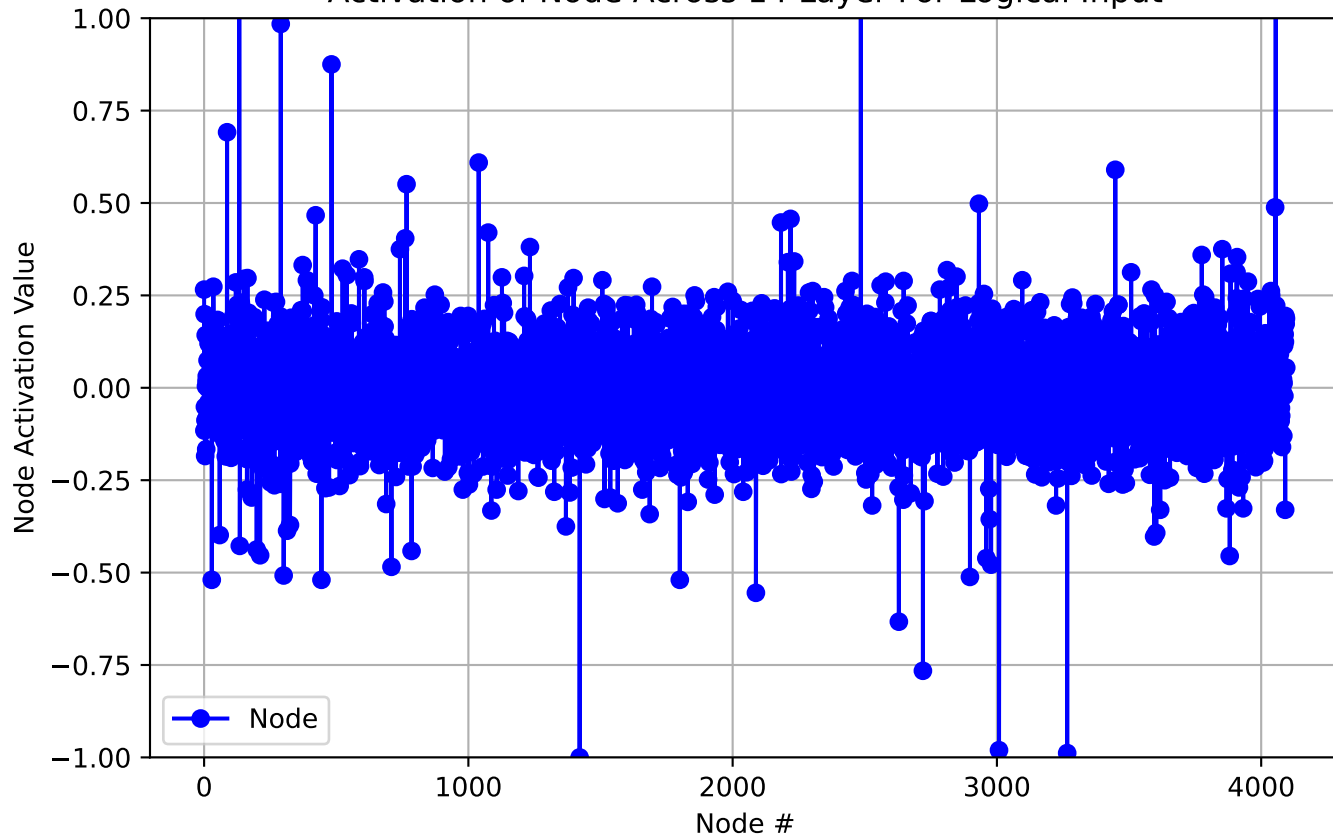

Activation of Node Across 12 Layer For Logical Input

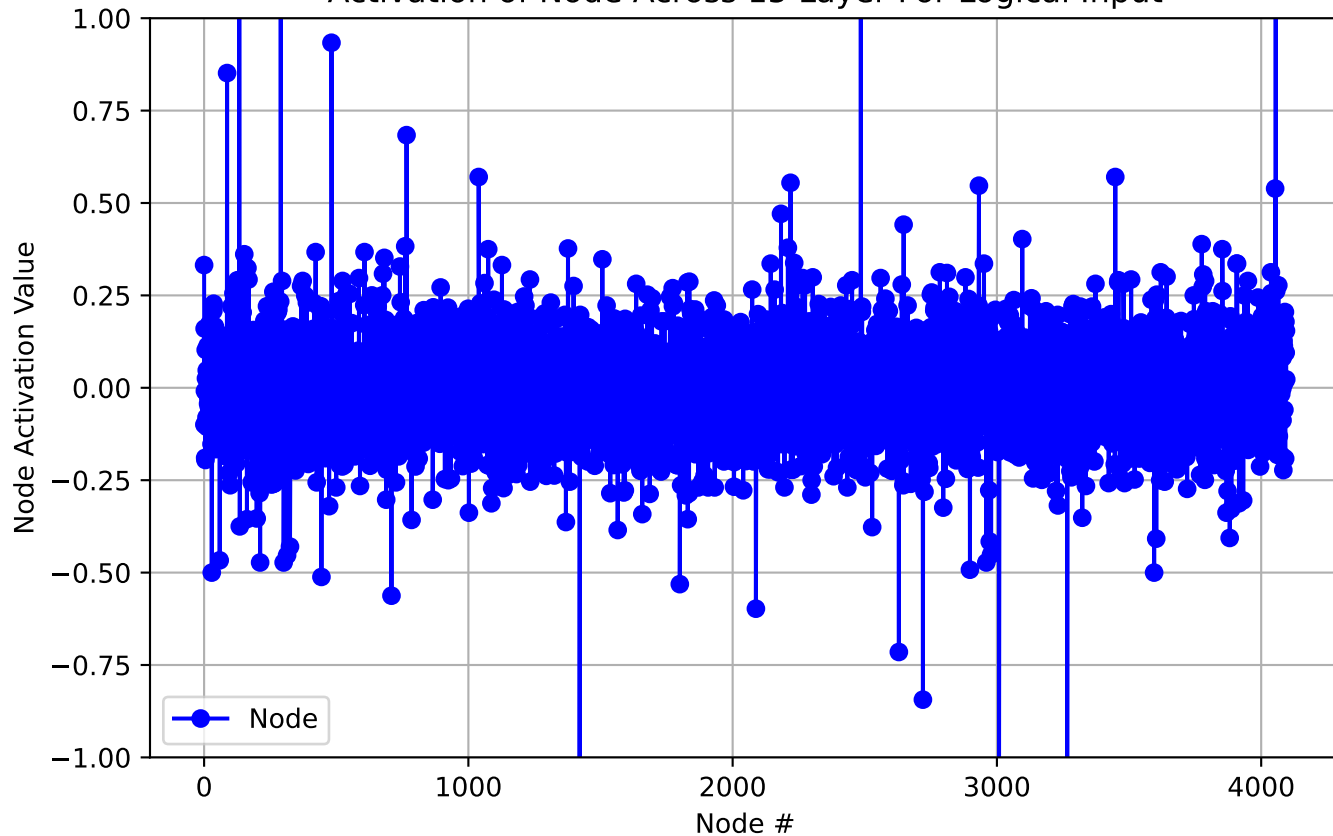

Activation of Node Across 13 Layer For Logical Input

Activation of Node Across 14 Layer For Logical Input

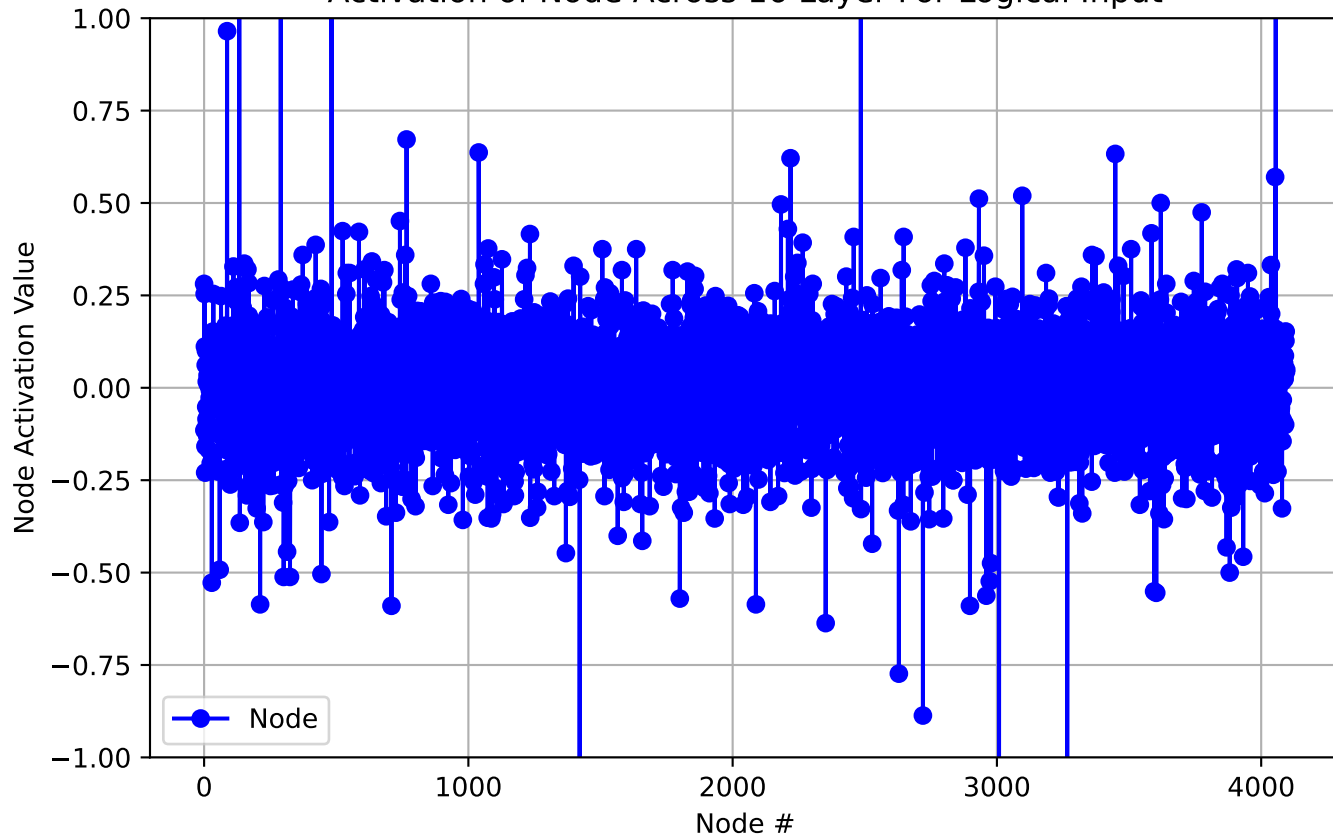

Activation of Node Across 15 Layer For Logical Input

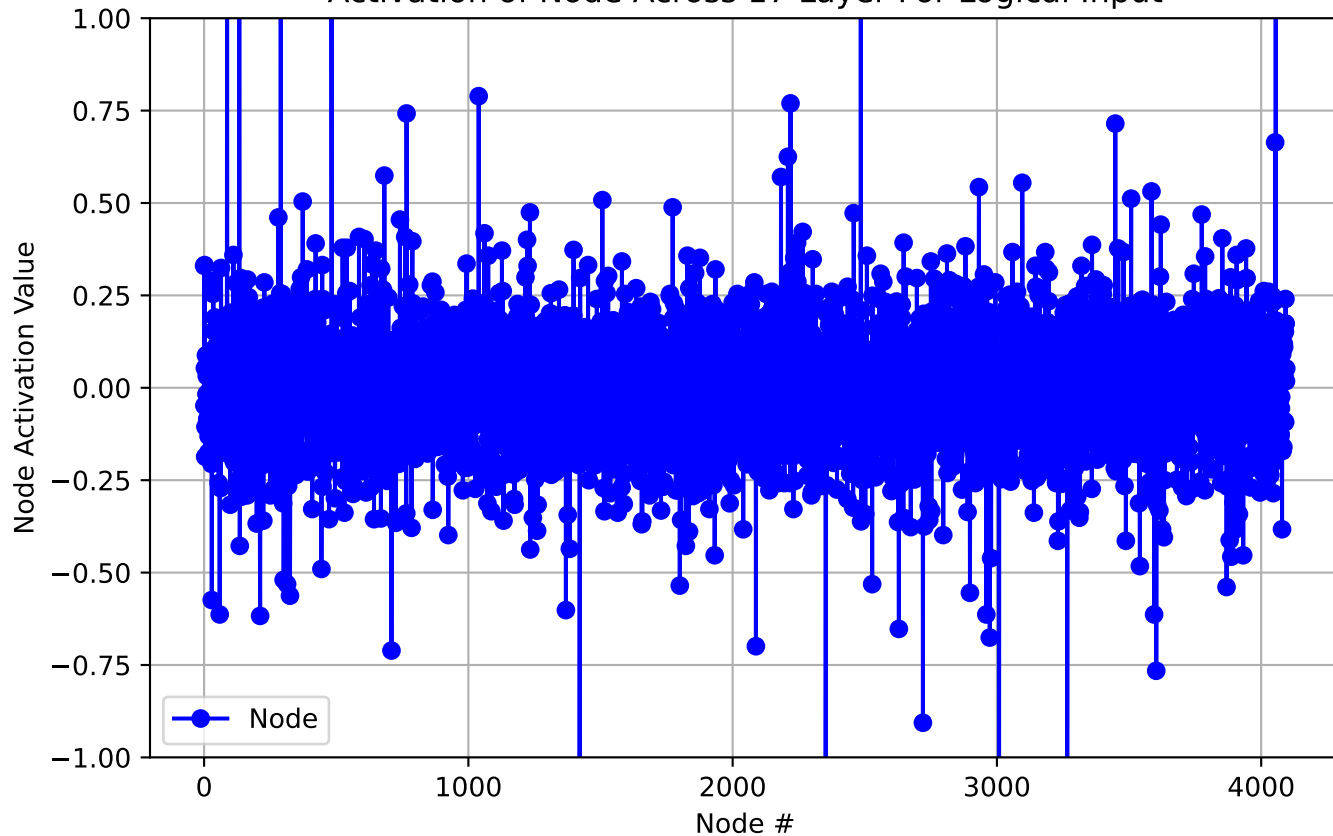

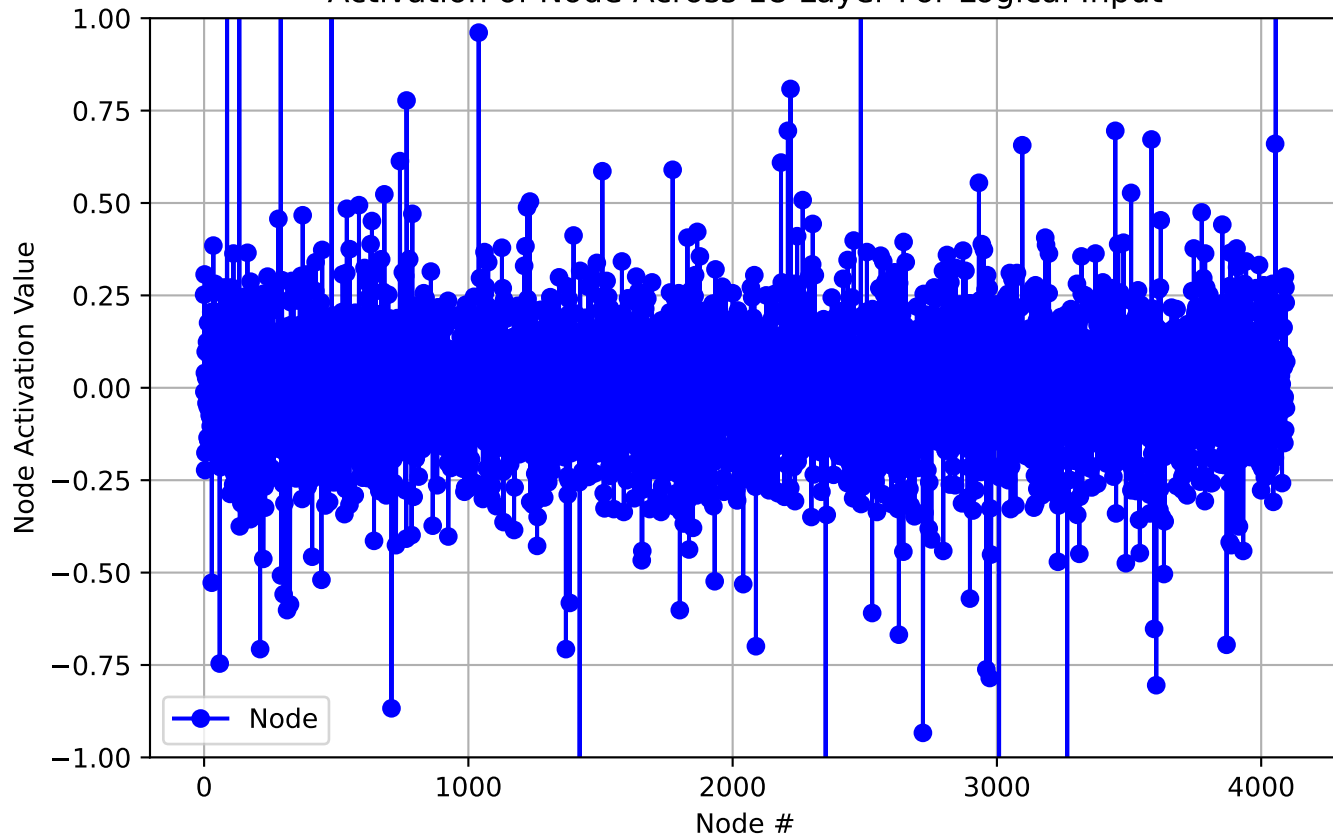

Activation of Node Across 16 Layer For Logical Input

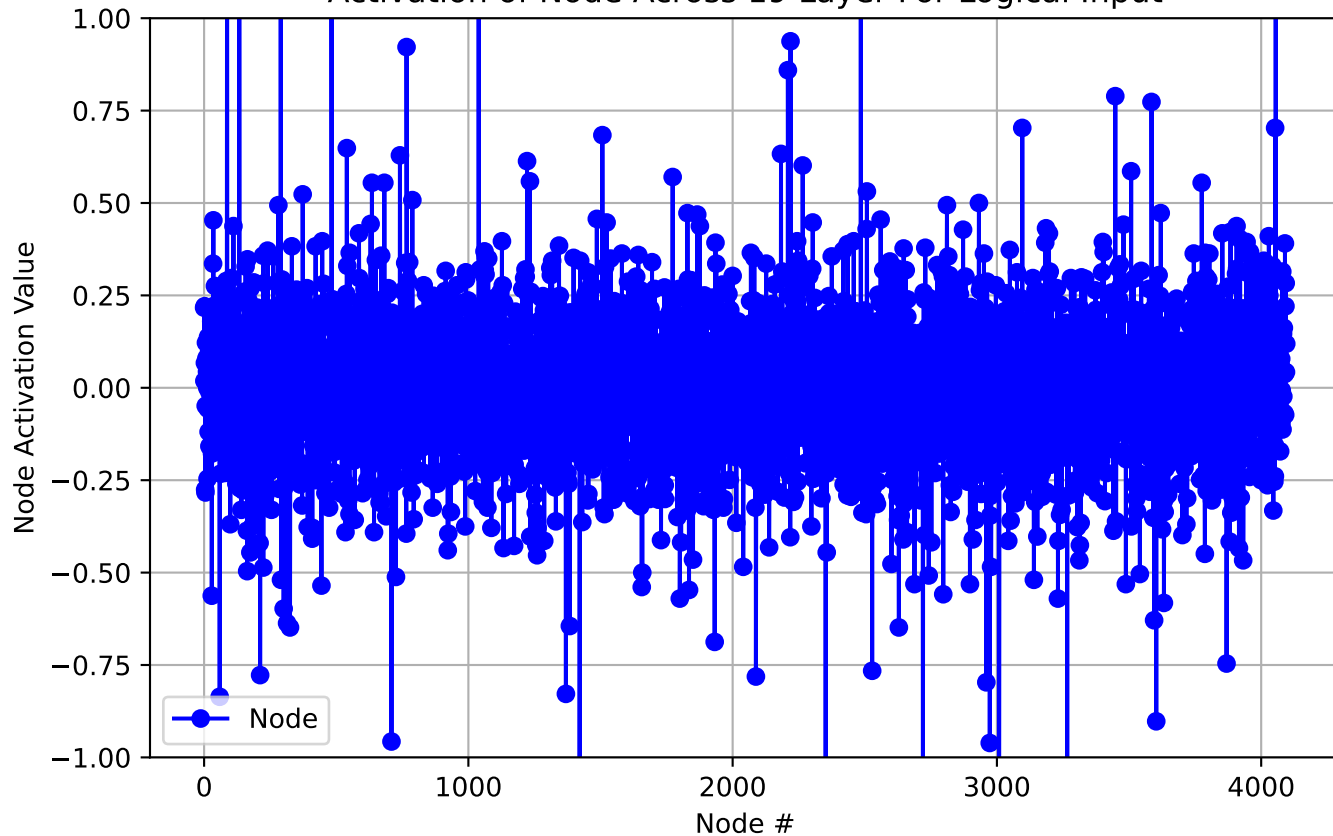

Activation of Node Across 17 Layer For Logical Input

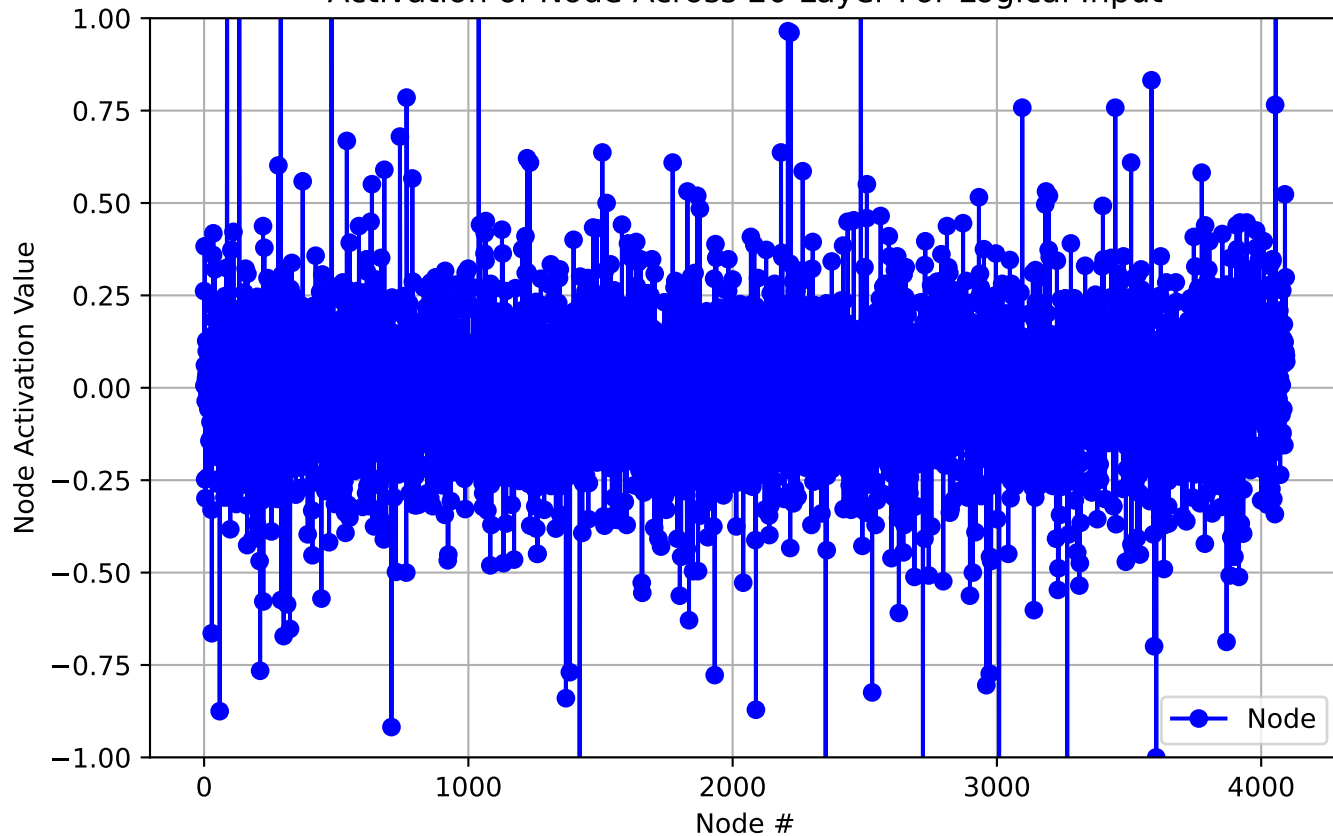

Activation of Node Across 18 Layer For Logical Input

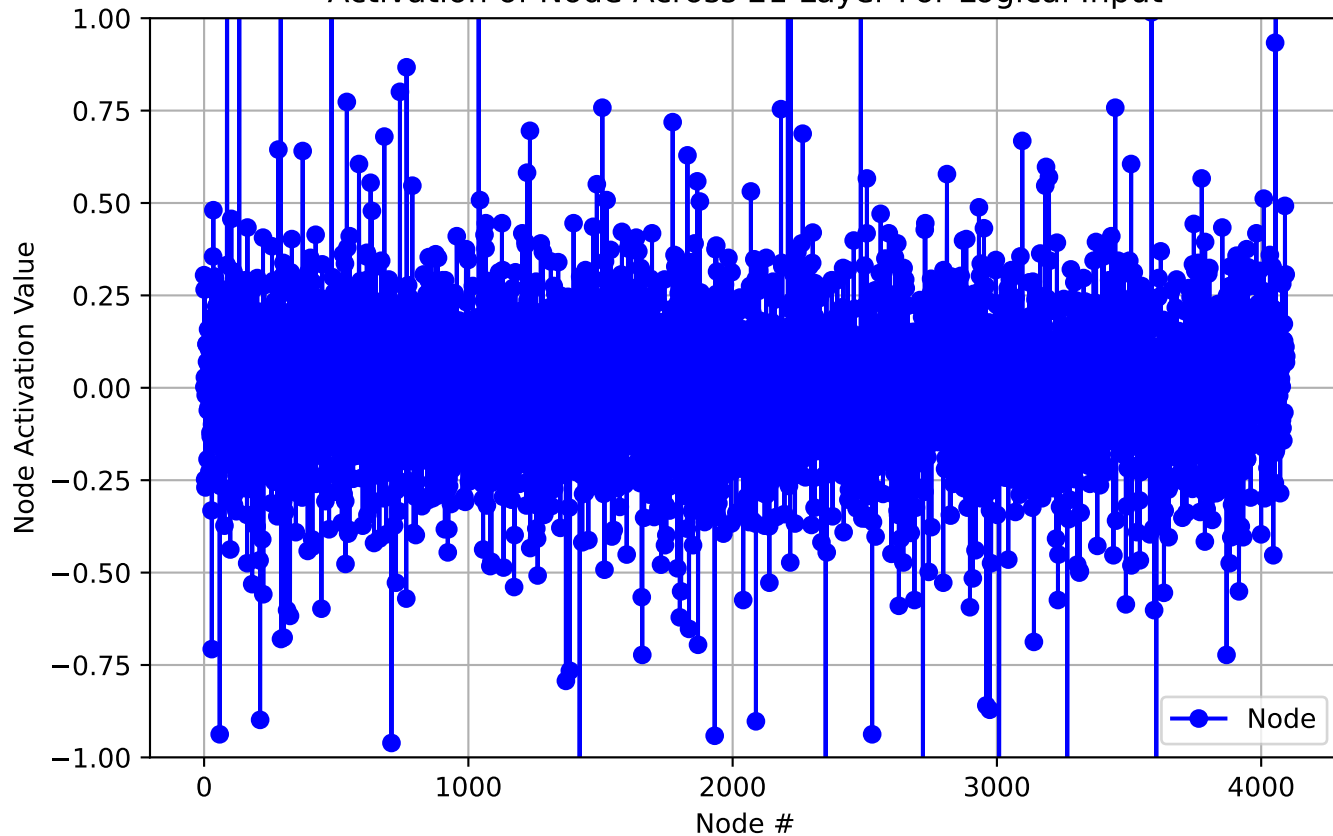

Activation of Node Across 19 Layer For Logical Input

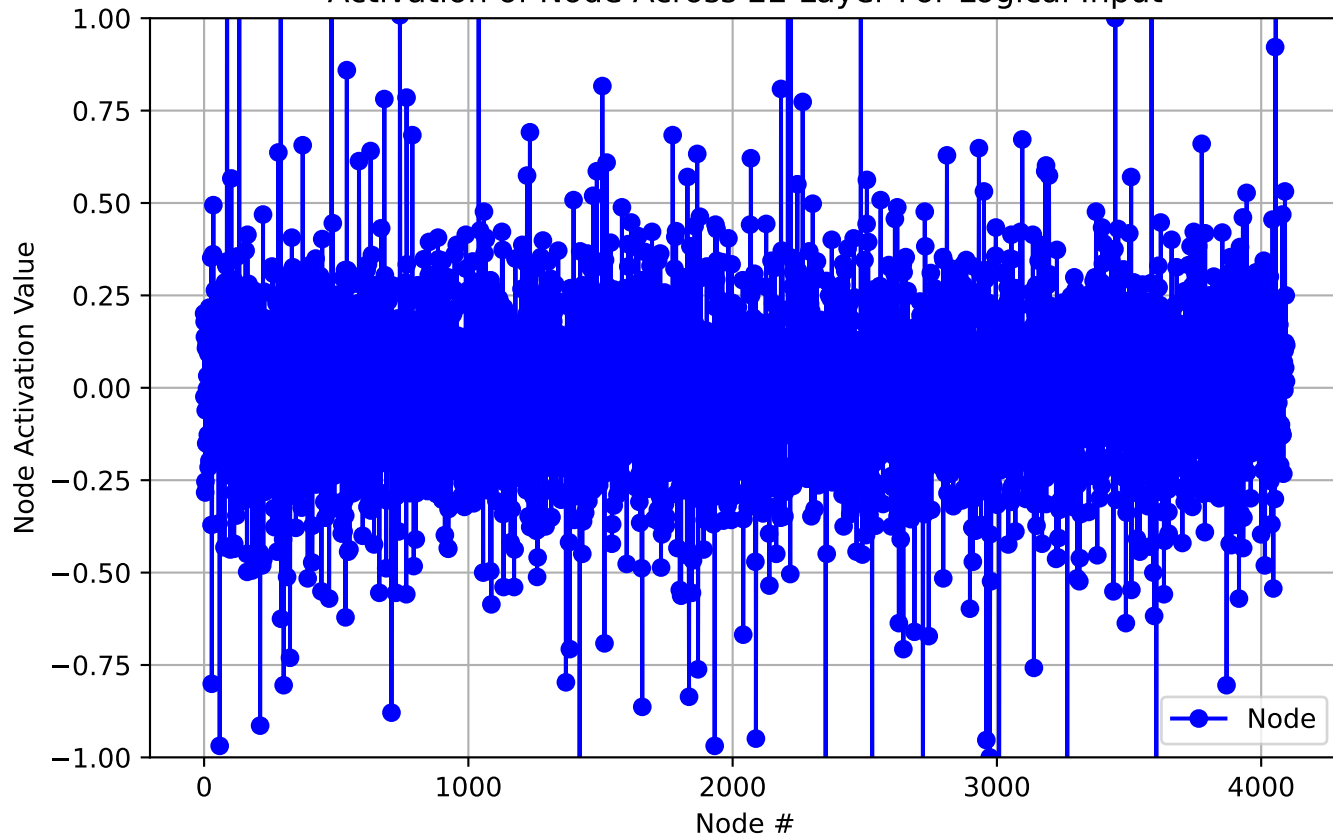

Activation of Node Across 20 Layer For Logical Input

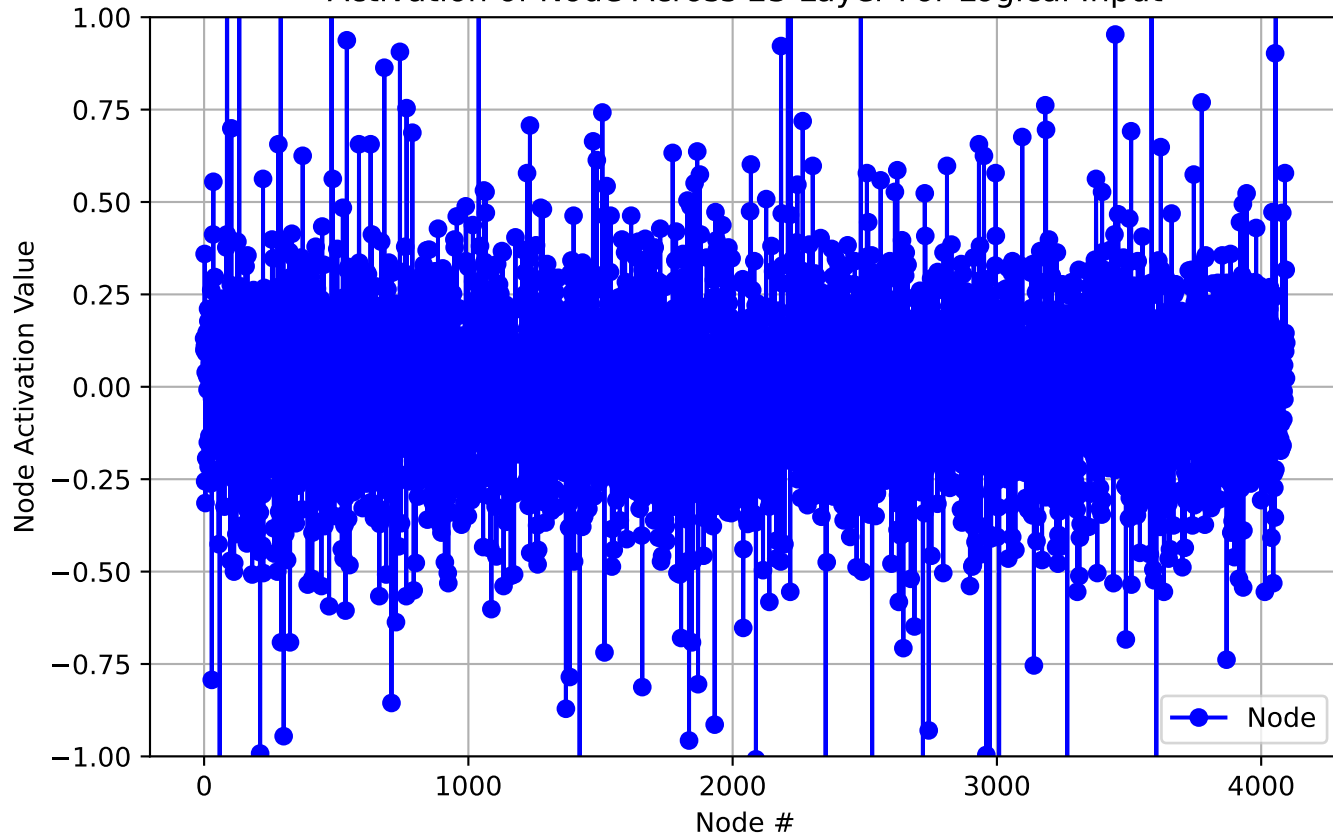

Activation of Node Across 21 Layer For Logical Input

Activation of Node Across 22 Layer For Logical Input

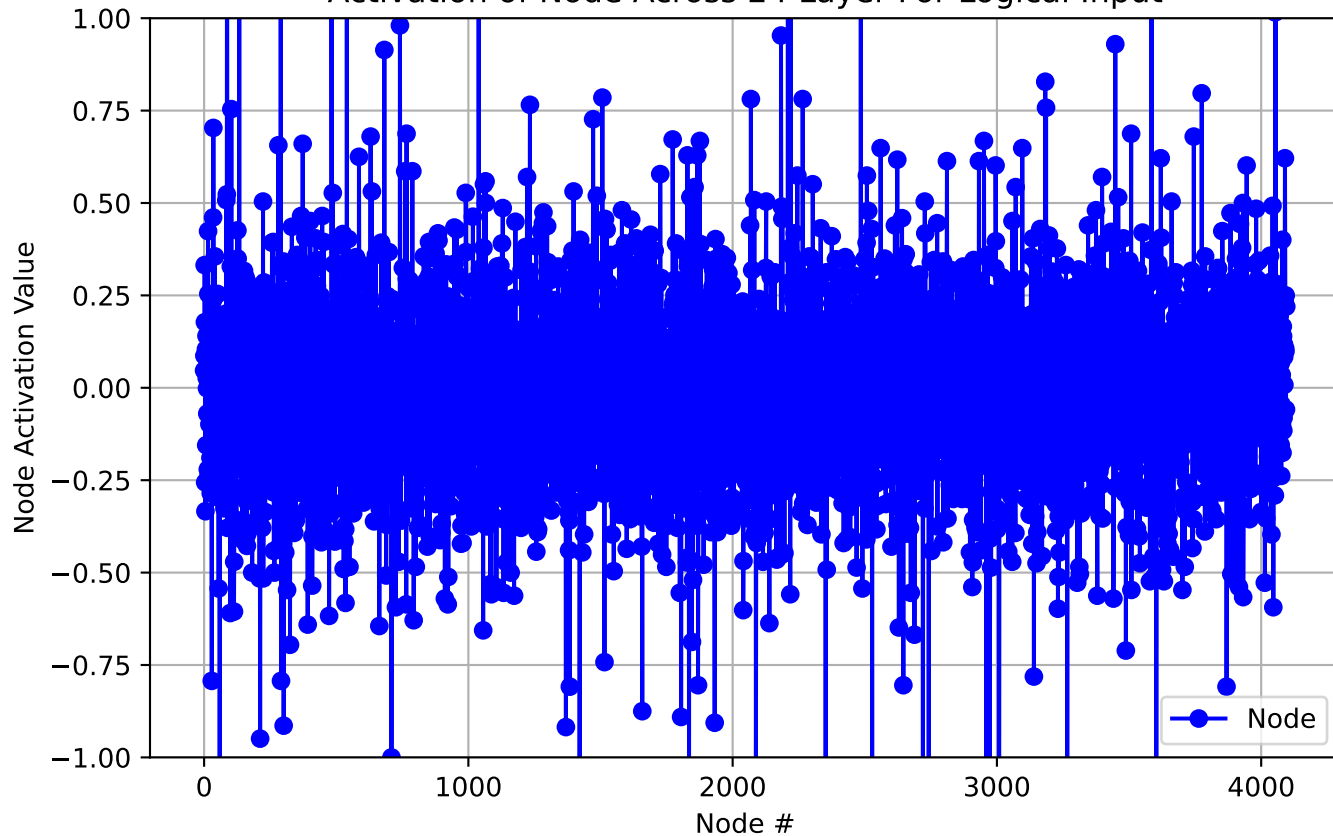

Activation of Node Across 23 Layer For Logical Input

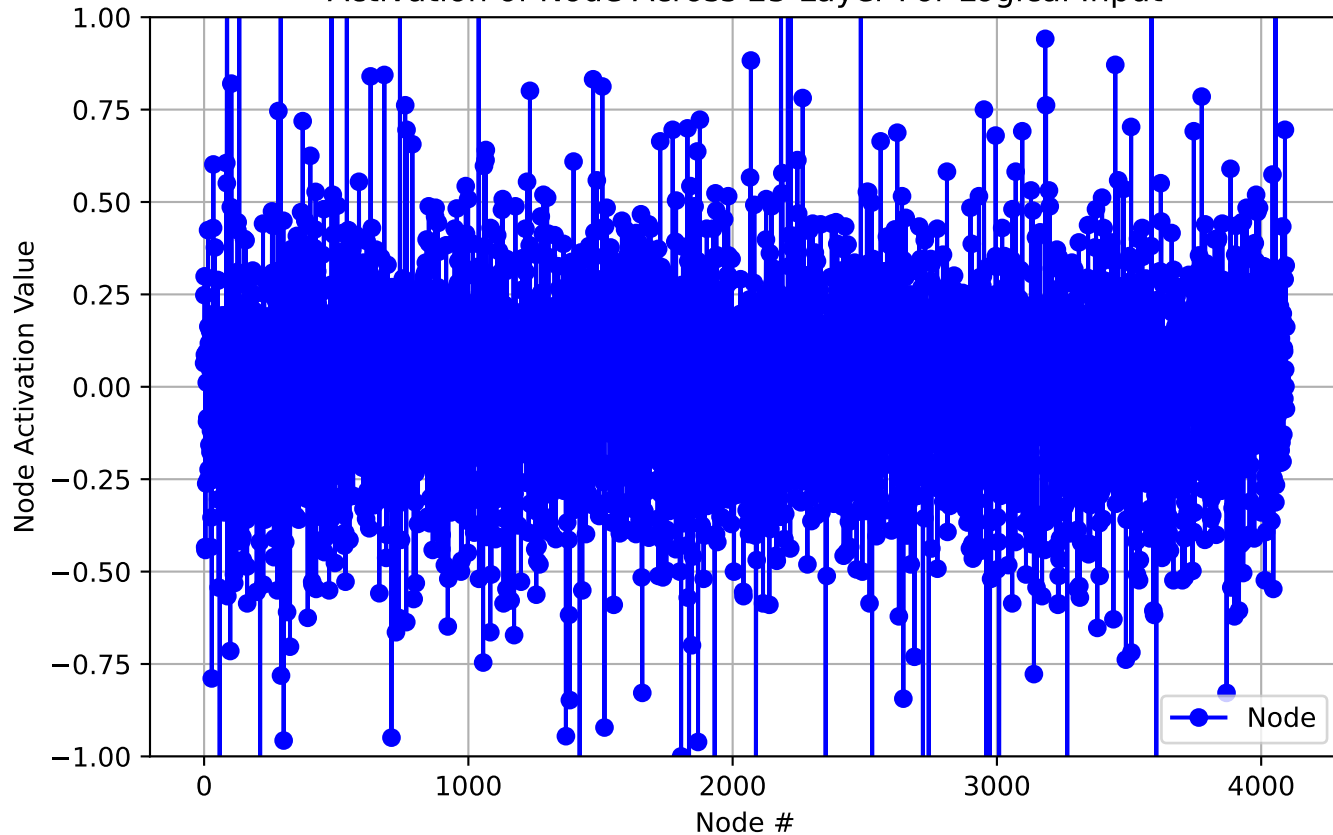

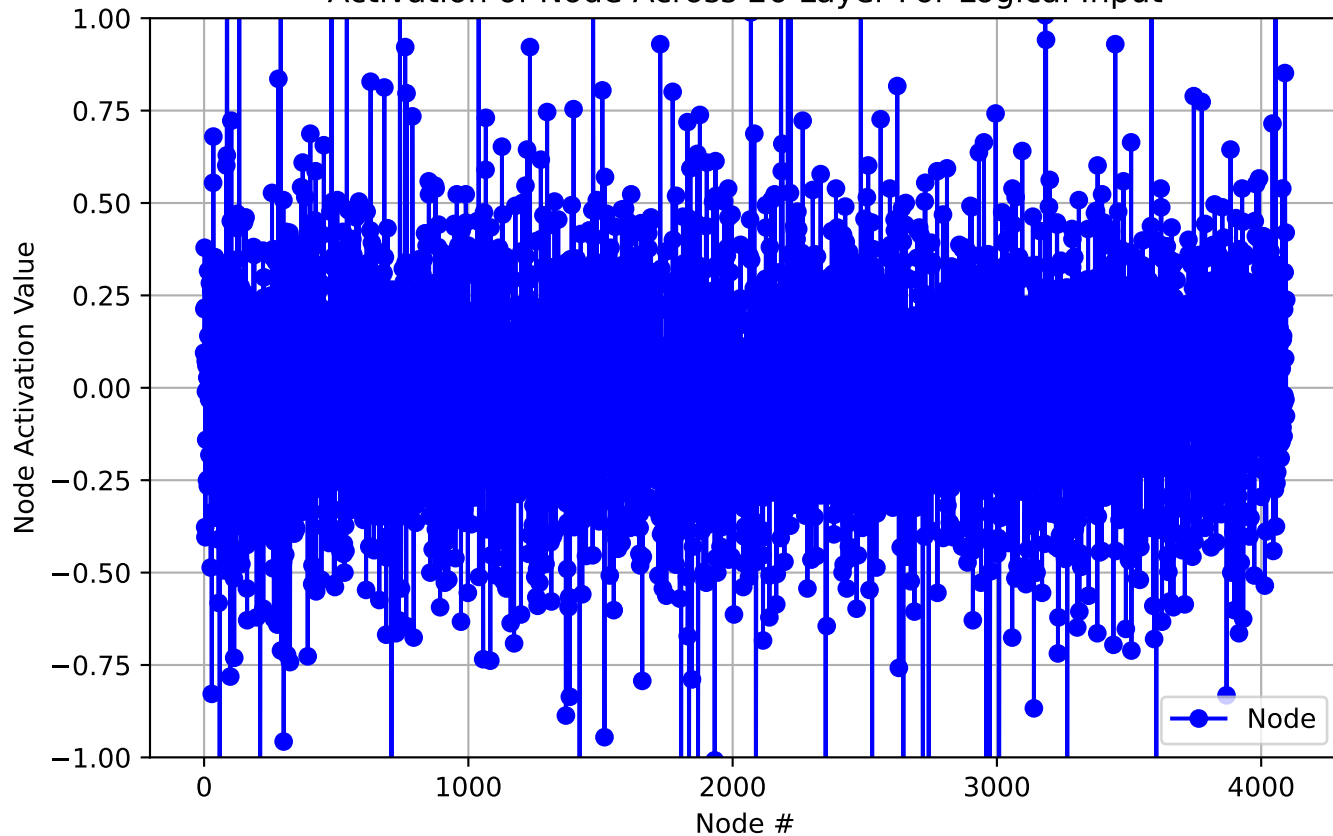

Activation of Node Across 24 Layer For Logical Input

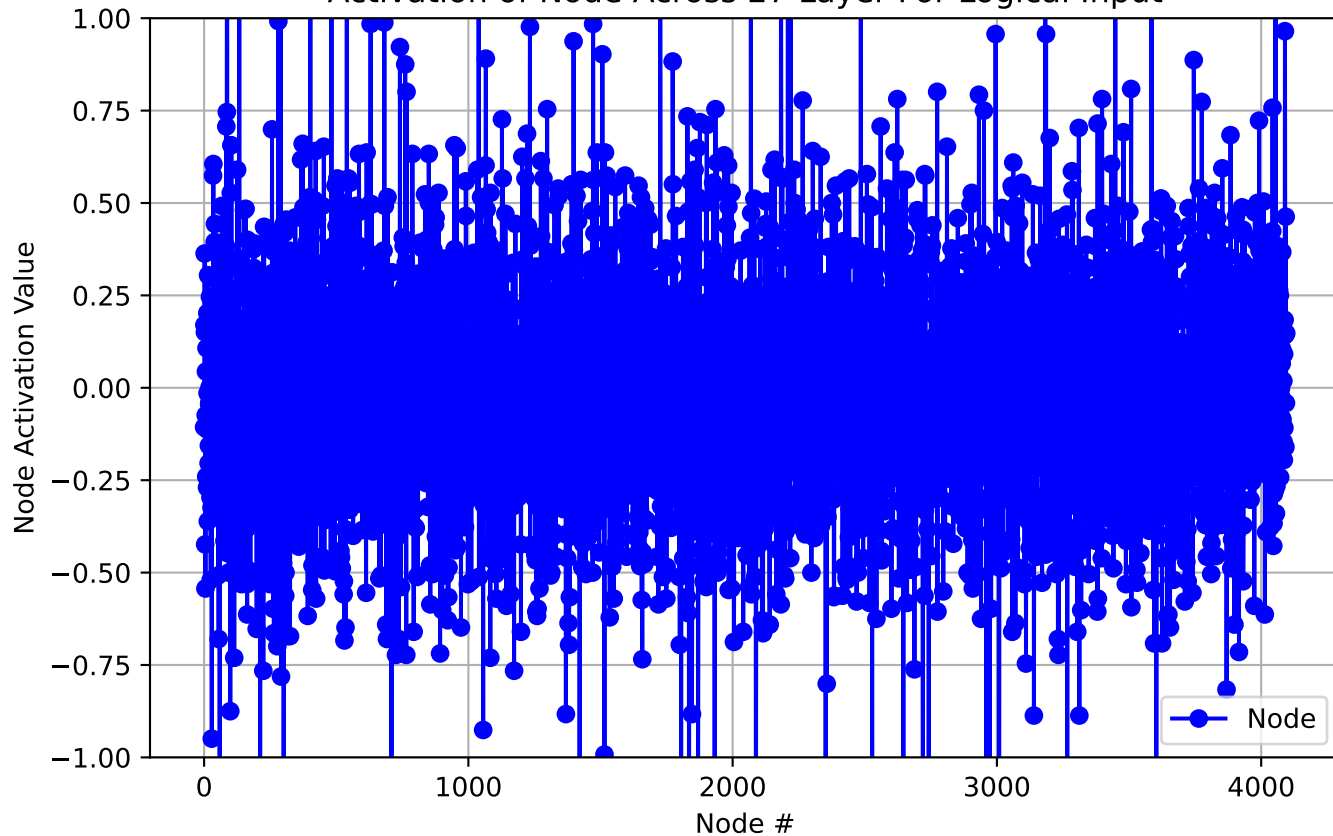

Activation of Node Across 25 Layer For Logical Input

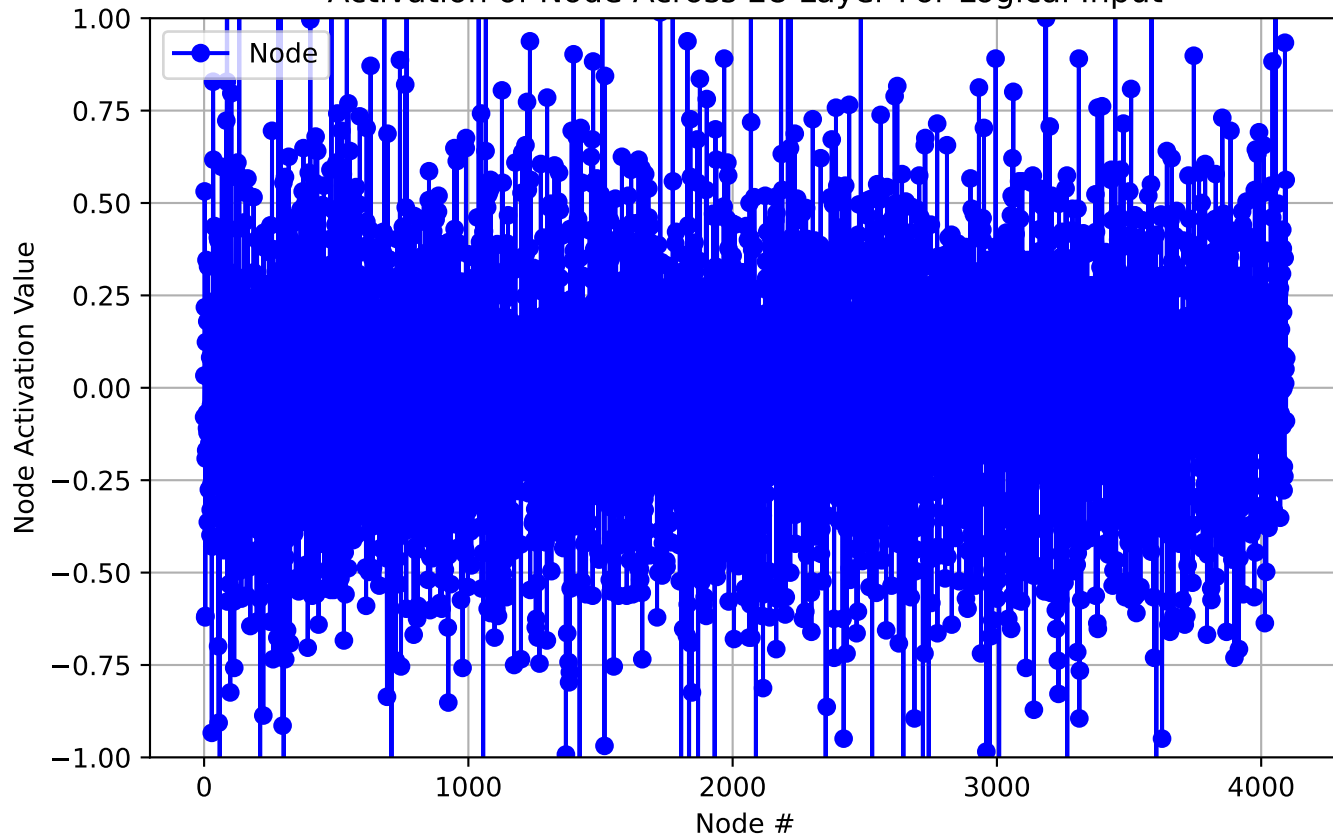

Activation of Node Across 26 Layer For Logical Input

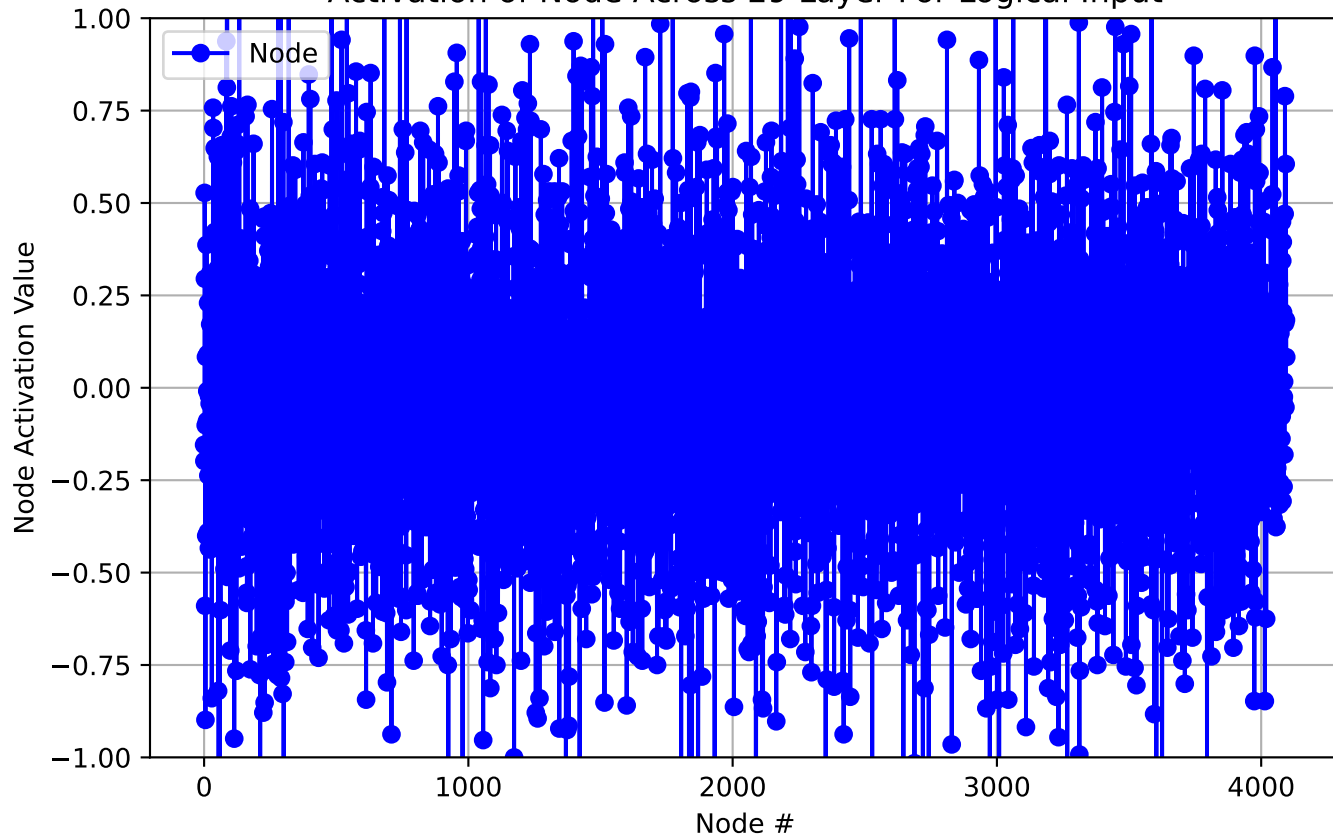

Activation of Node Across 27 Layer For Logical Input

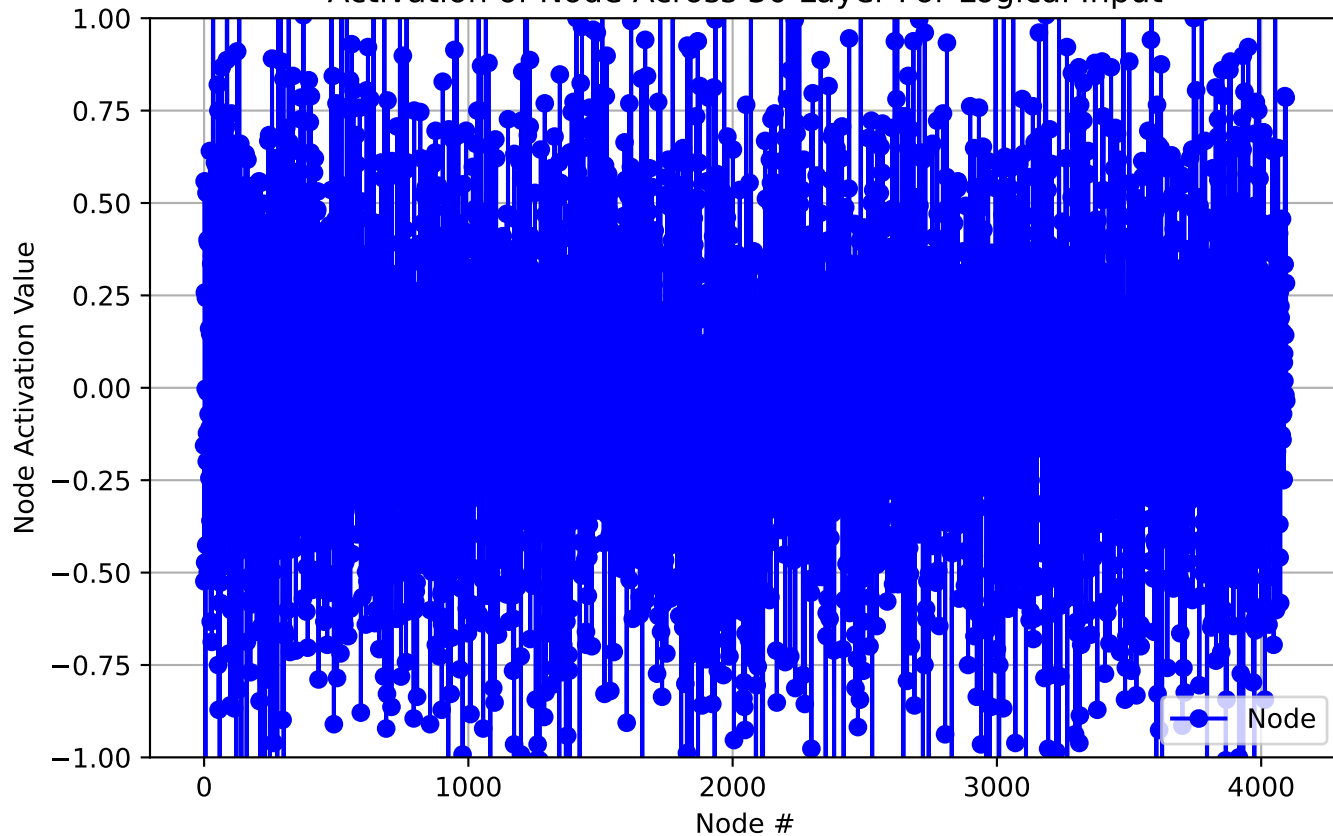

Activation of Node Across 28 Layer For Logical Input

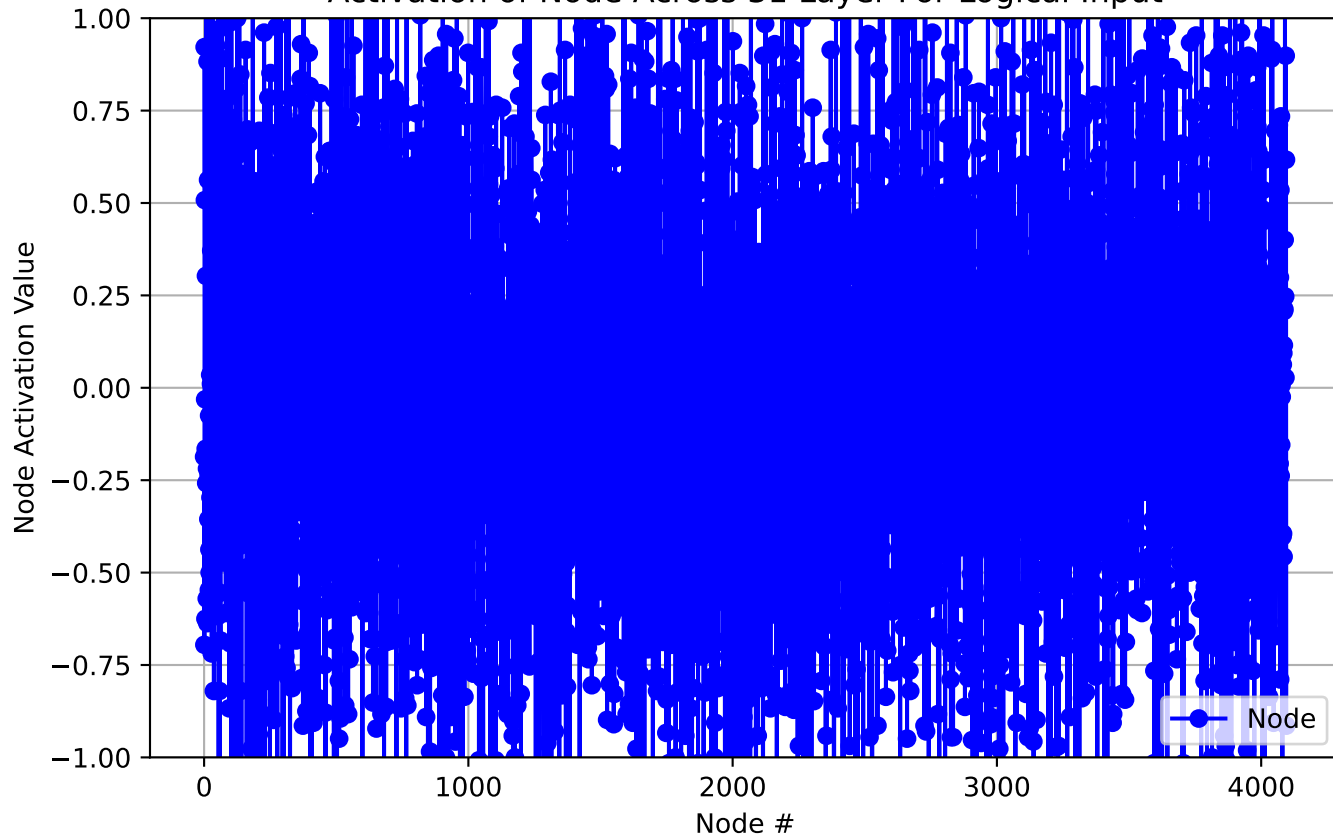

Activation of Node Across 29 Layer For Logical Input

Activation of Node Across 30 Layer For Logical Input

Activation of Node Across 31 Layer For Logical Input

Activation of Node Across 32 Layer For Logical Input
