Heatmap - Layer 15 (Probability 3200-3328)

A vibrant, abstract pattern consisting of numerous vertical stripes of varying widths. The colors used are primarily red, yellow, green, and blue, with some stripes appearing as thin lines and others as wider bands. The stripes are arranged in a seemingly random but rhythmic sequence, creating a dynamic visual effect. The overall composition is dense and fills the entire frame.

Heatmap - Layer 15 (Probability 3968-4096)

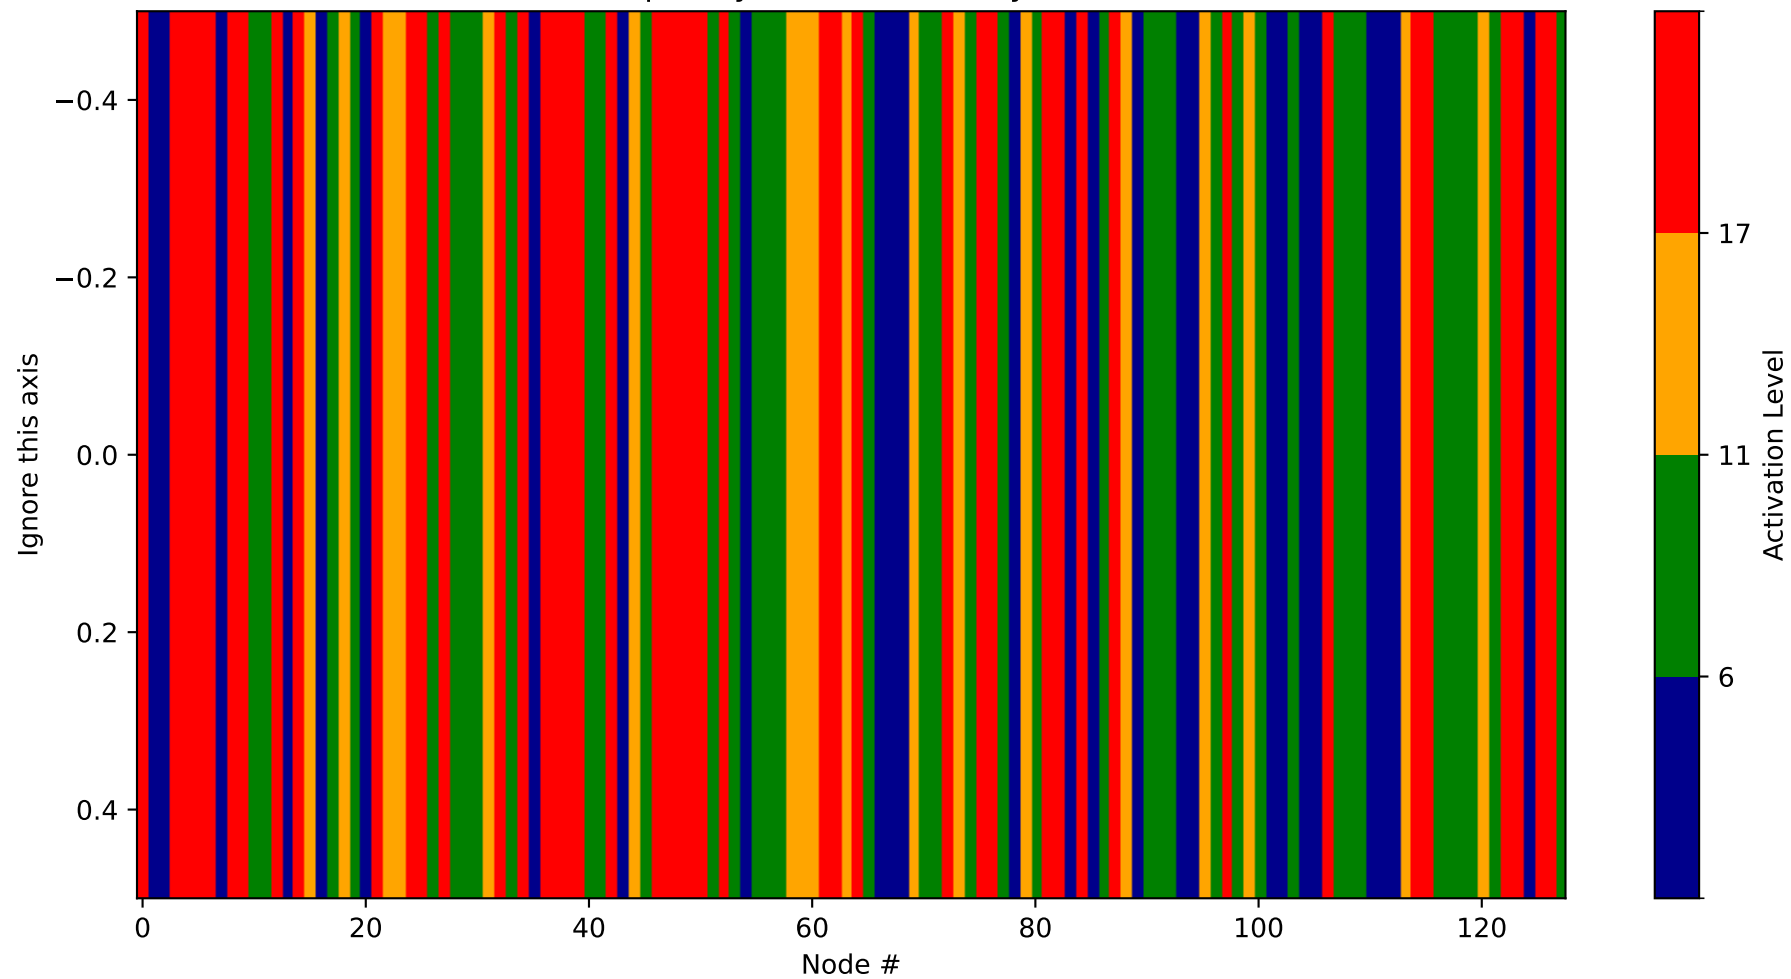

A vibrant, abstract pattern consisting of numerous vertical stripes of varying widths. The colors used are primarily red, green, yellow, and blue, with some stripes appearing as thin white lines. The stripes are arranged in a seemingly random sequence, creating a dynamic and eye-catching visual effect. The overall composition is a solid rectangular field of these colored stripes.
